## EXPERIENCE

### USC Games, Los Angeles — *Advanced Game Project Teams*

September 2019 - Present

#### **Our America - VR Designer/Engineer (Unity)**

Virtual reality narrative video game experience played from the perspective of an African-American father taking his son to school when they are stopped by the police.

#### **Skyfarer - Game/Level Designer (Unreal)**

Mixed reality rehabilitation application developed for upper body exercise of individuals aging with disability.

### The David Labkovski Project, Calabasas — *VR Developer*

May 2018 - May 2019

Created a portable virtual reality museum installation 'The World That Was' based on the works of Holocaust artist David Labkovski. Worked with a team of historians to recreate artwork in virtual reality. The installation travelled the world, translated into five languages.

## EDUCATION

### University of Southern California, CA — *B.A. Interactive Entertainment*

AUGUST 2019 - PRESENT

Freshmen at the School of Cinematic Arts. Minors in video game programming and game entrepreneurship.

## PROJECTS

### Virtual Reality Game/Experience Development

Developed and published a total of ten independent virtual reality apps on Viveport and Steam. Please see online design portfolio: [www.westonbdev.com](http://www.westonbdev.com).

### Board Game Design and Publishing

Designed and manufactured a 3D printed board game entitled 'Freakin Fractals.' Raised \$1,172 in Kickstarter campaign.

## TECHNICAL SKILLS

Adobe Photoshop, Illustrator, Lightroom, Blender, C++, C#, iMovie, Microsoft products (Word, Excel, Powerpoint), Java, Scheme, SolidWorks, Substance Painter, Unity, Unreal Engine 4, Valve Source SDK, Visual Studio and XCode
